

Student & Auxiliary Services Giving Guidelines

As a self-supporting auxiliary, our profits remain on campus to support programs, scholarships and facilities that benefit University students. In addition to redirecting our profits to the University, Student & Auxiliary Services occasionally provides donations to programs that are in line with our mission to support the University community. Because we receive an overwhelming number of donation requests, our giving is very focused.

The parameters below will help determine if your organization matches our giving guidelines. Please understand that although your organization may fit one or more of the guidelines below, it is not a guarantee that your request will be honored. While we wish we could support all worthy organizations, we simply cannot.

Student & Auxiliary Services will consider requests from the following:

1. University-affiliated organizations
2. Events conducted by University-recognized student organizations, University departments, or alumni chapters
3. Community programs sponsored by the University of Missouri

Regrettably, Student & Auxiliary Services cannot support:

1. Requests from individuals
2. Silent auctions, event sponsorships or other fundraisers for non-University events
3. Non-university programs: sports, troops, camps, carnivals, class parties, etc.
4. Religious and political groups/campaigns
5. Items distributed or sold on University property that compete with the operations of Student & Auxiliary Services

The majority of donations are in the form of merchandise from University BookStores and MU General Stores.

All requests must be submitted on the "Donation Request Form," which can be downloaded from this website. The donation request form must include contact details, scope of the organization applying and details about your initiative. Please allow 7 business days for a response.

Forms can be mailed, dropped off or faxed to:
